print method

All tattoos are printed in four colour process with a standard one colour print on the back. An optional white ink can be added for FREE for designs that require a light or white background. tattooads™ are wrong reading when printed and right reading when applied.

file types

For logos and other drawn designs, we prefer vector art work and for photographs and other painted designs, rasterised artwork works well.

Accepted file formats:

- **EPS files** - All Fonts Outlined
- **Adobe Illustrator** - All Fonts Outlined
- **Image file formats** - TIFF or JPEG (Min. 300 DPI)
